3. Kode program upload adalah kode untuk membuat fitur upload agar dapat diunggah ke website/programnya. Action yang digunakan dalam file latihan1.php ini adalah latihan1\_upload.php.

Pada latihan1\_upload.php, file yang ingin dipanggilkan untuk kode tersebut harus menggunakan variabel objek `$_FILES[""]` agar dapat dipanggilkan dan diproses dengan objek `move_uploaded_file()` yang terdapat dalam percabangan di file latihan1\_upload.php.

```
prakt > gambar > latihan1.php > form > post
